• Best Retail Campaign for Rakuten Marketing,
• Best Team in Performance Marketing for Rakuten Marketing, 2019, International Performance Marketing Awards

---

Software Engineer / Machine Learning Specialist

Got full stack experience creating and managing websites, apps and GUIs from the concept stage all the way to publishing. Love learning new things and tools every day. If I do not know something I will learn it.

Work Experience

Technical Infrastructure - Vedra, Valve Corporation

MARCH 2020 — PRESENT

• Created a universal video game microtransaction cryptocurrency for Steam Developers.

• Reduced the time requirements between each transaction to make the coin more video game friendly by modifying the Scrypt algorithm.

• Created both ethereum and blackcoin-based servers and wallets for Windows, Apple and Linux so I can incentivize game developers to modify Vedra however they see fit and figure out better solutions for their specific needs.

Credentials: Vedra, Wallet, Vedra On Steam

Hardware Engineering - Steam VR, Valve Corporation

MARCH 2020 — PRESENT

• Making high-end gaming more approachable to the masses by helping develop the most affordable VR headset in the market that supports Steam VR.

• Improved room-scaling AI and by extent the device's precision and freedom of movement.

• Helped design a motherboard with a total production cost of $25.

• Reduced hardware costs by 3D printing most of the parts.

Credentials: Relativity, GitHub Page, Admin Certification

Software Engineering Consultant, Rakuten Advertising

MARCH 2018 — DECEMBER 2020

• Created award-winning apps and websites for 4 different Rakuten divisions plus Walmart.

• Helped American retailers like Target and Walmart establish a presence for millennials and Generation Z members in the difficult-to-enter Asian markets.

• Won 4 International Performance Marketing Awards (IPMAs) for "Best Affiliate Network", "Best Performance Marketing Campaign", "Best Retail Campaign" and "Best Team in Performance Marketing".

Credentials: Main Website, Target Website, Walmart Website

Education

MicroBachelors (MB), Computer Science Fundamentals, NYU Tandon School of Engineering

MAY 2020 — MARCH 2021

Activities and Societies: IBM Quantum Experience

Advanced Professional Certifications (APCs), Computer Science for Web Programming, Mobile Apps, Game Development, Artificial Intelligence, Harvard John A. Paulson School of Engineering and Applied Sciences

JANUARY 2020 — MAY 2020

Activities and Societies: CS50 (Harvard's largest course.)
